

Checking Your Grades

How your instructor grades and returns your assignment to you is up to them. Some instructors will grade an assignment and return a copy to you during class. Some will grade and return notes to you via email, while some will return grades via Blackboard. To check your grades in Blackboard, click on the My Grades link in the menu.

Using the My Grades link allows you to confirm submitted items, see your scores on course material, and view any comments or feedback from your instructor. If you have any questions about grades or how to view a returned assignment, ask your instructor.

These icons in the My Grades area indicate the following:
